

## HTA 50 Skin Only

Perfectly quiet and lightweight

The STIHL HTA 50 works with our AK system and is ideal for tree work around your yard, including noise-sensitive areas. Featuring ergonomically optimised operating handle, control is at your fingertips! Suitable for use by right-handed or left-handed operators, the entire grip area is encased in a comfortable grip tube so that you can hold the cordless pruner firmly in your hands.

With the STIHL 1/4" PM3 saw chain you can achieve a high cutting performance. Low weight and the lateral chain tension makes it easy to retightening the chain, you can work comfortably, ergonomically and with less effort.

You can retrofit the STIHL HTA 50 battery pruner with the optional STIHL Smart Connector to track usage and servicing needs.

The HTA 50 has an overall length of 280cm and thanks to the adjustable length (to 150cm), is suitable for transport and easy to store. With the optional shaft extension, you can extend the length to 330cm.

1) Without cutting attachment, without battery

2) K-factor according to DIR 2006/42/EC = 2.5 dB (A)

3) K-factor according to DIR 2006/42/EC =  $2 \text{ m} / \text{s}^2$

4) Minimum with tool

**PLEASE NOTE: Reserving STIHL Products**

These products can be reserved online with no obligation and picked up at your local STIHL Dealer. As your satisfaction is of particular importance to us, we provide you with extensive in-store personal instruction including safe handling plus professional advice and service to ensure you get the most out of your STIHL purchase. \* Sale price and availability may vary from store to store.

## Features

## Standard

**1/4" PM3 Saw Chain**

The high-quality 1/4"-PM3 saw chain in conjunction with the Rollomatic E Mini bar ensures optimum cutting performance when pruning high branches.

### Viewing window on the oil tank

Thanks to the viewing window, you always have an eye on the oil level.

## Branch Hook

The stable branch hook helps when cutting. After cutting, loose clippings can be easily removed from trees thanks to the robust branch hook.

### Split Shaft

The shaft of the HTA 50 can be easily shortened thanks to the clamp coupling with toggle screw. The device can therefore be transported and stored with ease.

### Ergonomic Grip

Ergonomic grip handle for safe and comfortable work.

### Ergonomic control unit

The ergonomic operating handle combined with a self-resetting locking lever is user-friendly and enables an intuitive starting process. Easy to use for both right- and left-handers.

## Accessories

#### **Battery Charger - AL 500 - Super Quick**

With the increase in battery capacities the new AL 500 Super Charger enables extremely rapid charging to minimise down time and allow increased productivity. Charging the AP 300 to 100% in 35 minutes and the AR 3000 backpack battery to 100% in 160 minutes the AL 500 Super Charger is aimed at the professional landscapers using the STIHL battery range. The reduced charge times make the STIHL battery power system even more desirable and allows all day working in the professional area.

#### **Oil - Chain & Bar - SynthPlus - 1L**

Do you question which lubricant is suitable for which cutting attachment, climate zone or type of wood? No need to puzzle over the answers with semi-synthetic STIHL chain lubricant. Our high-performance lubricant is extremely suitable for all moving saw chains. Well protected. STIHL chain lubricant effectively protects saw chains from wear. Thanks to its high temperature resistance, cutting attachments are optimally protected even from short-duration maximum thermal loads. Smoking is inhibited. Keeps on flowing. Even at temperatures down to -20° C, STIHL chain lubricant retains its outstanding flow properties. Selected additives prevent resinification of the cutting attachment and other treated parts. And you can start using the saw straight away, even after an extended idle period.

#### Extension Shaft - HTA 50 - 50cm

With the STIHL HTA 50 shaft extension, you can increase the range of your STIHL HTA 50 battery pruner by 50cm. This makes it easier for you as a private user to use it in hard-to-reach places, for example when cutting fruit trees, and you can also cut very high branches in treetops. The shaft extension consists of lightweight and durable aluminium. It weighs only 465g, so you can work with your STIHL HTA 50 with less effort.
